BROOKLYN CITY COURT — March 11 — Before Judge CULVER.

City of Breoklyn agt John B. Brahm.

Action brought for a violation of the Sunday ordinance. Verdict for the City, \$220. This is the pioneer case, and its favorable decision decides the efficacy of the ordinance for the suppression of the Hopor traffic on the Sabhath, and gives us promise that all grog-shops in the city shall be closed at least one day of the week. This case will probably be carried to a higher Court, and the legal power of the City to pass this ordinance be decided.

TUESDAY, March 11-p. m. The dullness and heaviness of the Stock market continued, with some exceptions, to-day until the Secend Board, when a new activity sprung up in Reading and Erie. Of the former the sales were 6,000 shares, not including 2,000 shares sold between the Boards,

Purchases of about 5,000 shares for Philadelphia ac count were made, mostly supplied by one party, who has been a large bayer for the last week publicly and privately. The largest operator in Reading in this market is supposed to have sold largely within the last ten days. Erie is being depressed by the bears, and its friends do not intervene, having mostly sold out at high prices, and being desireus of coming in again at low prices. It slosed at 563, having touched 564 Central was heavy in tae morning, but recovered at the close to 914. Harlem fell off to 16]. Hudson River 33]. The largest advence was in Nicaragua, which improved rapidly from 21 to 23; which is 1 \$\psi\$ cent better than yesterday's price. There seems to be a very general impression that there is a large advance impending in this stock, but thus far every advance has been followed by a decline Comberland was steady, closing at 231. The Western Stocks were generally firm at the close, but not very active. There was a foreign demand for Illinois Central, and the market was firm at 973 2 97; Illinois Central Railroad Bonds sold at 88; Harlem 1st Mortgage 86; 2d Mortgage 752; Eric. 1875, 902; 1871,

closed at 90%, having touched 90% in the morning.

At arction \$100,000 Southern Michigan Sinking Fund Bonds sold at \$1083, interest added, equal to about 84% 86, which is an improvement. The market for State Stocks was not active, but firm. Virginias

There has not been a large business done in Exchange for the Boston steamer, but the market is very firm. In consequence of this firmness remitters have kept out of market, and the principal purchasers have been bankers, to cover credits. The supply of outside bills was small, as has been the case for some time

past, much to the surprise of those who have noticed large transactions in Cotton at the South. One aplanation of this scarcity of bil's is that a large poron sixty-day belis drawn on the North, the purchasers shipping the Cotton to Europe, and proposing to sell it again here in transity. The market has not favored these sales, and consequently exchange has not yet been drawn against such cotton. These sixty day bills are new falling due, and it is estimated that at least 30,000 bales-and by some parties the estimate is as high as 50,000 bales-must be sold in the next fifteen days, which will give a million and a half of dollars of exchange, in addition to the current supply. The trappactions in Cotton are moderate at | # ic. decline, and the market is dull at the lower price. There is a little more activity in Coffee. The bark Hazard's cargo, 3,700 bags, sold at 11 le., on speculation. From New-Orleans we have advices of sales of 25,000 bags in eight days. Prime is quoted at 12c. Sugars are dull and heavy. Molasses is more active; sales of 700 hhds. Trinidad de Cuba at 35@3sc., and New-Orleans at 42@44c. The Tea sale at auction to day went off with animation; Greens sold at a little advance, and Blacks were steady. The receipts of Flour are liberal, and State brands are 121c. lower, selling at \$7 1212\$7 25. The better grades were comparatively firm. Wheat is fion but dull. Rye is better, and selling at \$1 17@\$1 18 Oats are steady. Corn is lower but more active; 66 267c. for Western mixed. Pork is in better demand, and Prime

This shows, upon comparison with the 1st day of January last, an increase in the item of deposits of \$64,664 and of loan \$712,081; and a decrease in the item of net circulation of \$480,238, and of specie

charge, held at their rooms, No. 34 Pine street, on Monday; the 10th inst., the following persons were elected to serve as officers for the ensuing year: Sylvanus S. Ward, President; George H. Potts, Vice President; L. J. Belloni, jr , Secretary; L. W. Phillips, Treasurer; Henry Reeve, J. Baker, Jer. Wilkinson, G. F. Power, Wm. M. Rogers, G. P. Nevin, Joseph Noble, T. Truslow, jr., Thos. Maher, Directors; Charles Lowther, David J. Nevin, Samuel Castner, Samuel R. Mabbatt, Joshua Rogers, Arbitration Committee: J. W. Andreas, Frederick Oakley, Chas. Am-

bler, Inspectors. The sales of the day reach 10,000 shares. The market | The Manhattan Bank has purchased the premises in

the rear extending to Pine street, and will enlarge its hanking house.

The large number of Western mails received to-day has caused a good deal of activity in the street, in the payment of crafts, &c. The remittances from the West are very large, and the Eastern currency received for redemption will turn the course of Exchange on Roston, and bring back the gold that city has drawn from us in the last few days. The tendency of gold is at present to New York from all quarters, and we shall need all we can get if the shipments of gold to Europe continues at the rate of a million per week, as at present they promise to. These shipments will be about half a million each fortnight more than we receive from Cal fornia, and unless the defickney is made up from the interior, the banks must contract their loans to meet the diminished specie basis. Our enormous imports will require large re-mittances of bills and gold, and notwithstanding the large creps of last season, our specie exports seem lkely to exceed these of last year. The market is beginning to feel the effect of excessive imports, and some descriptions of Dry Goods have fallen within a week or two 15 to 20 \$\psi\$ cent.

The last monthly statement of receipts of the Penn-

sylvania Railroad for the month ending on the 29th of

The Minnesota Mining Company has declared a lividend of \$10 per share, one half psyable June 1st ext, and one half September 1st, from the earnings of last year. The Lake Superior Miner of February 9th

says:
"The Minnesota raised during the month of January "The Minnesota raised during the month of January 21s. 177 lbs. of copper, being 159 tuns 177 lbs. This, we believe, is the largest amount ever yet raised in one month by any mine on the lake. The copper is of high parity, and was prepared for shipment in 213 parcels or packages. There were 34 masses over 1 and under 2 tuns weight, and 22 were heavier than 2 tuns. It is reported that its copper on hard at the lake, at the opening of navigation, will be worth \$400.000."

It is understood that the Pacific Mail Steamship Company have already on hand over \$400,000 for their dividend, equal to 10 \$\pi\$ cent on the capital, in addition to having paid off about an equal amount of floating debt. The business of the last year has been very prosperous. The entire debt of the Company now, which is due in September next, and can be easily extended, is less than \$275,000.

At Philadelphia, money is in unusual abundance, and a very limited amount of prime paper is on the market. The banks are discounting freely. Paper on the street is at from 6 to 7 ? cent. for first-class

At Boston, the money market is also very easy. The Cincinnati Gazette states that on Tuesday last and the day before, there were 21 arrivals of steamboats at that port from New Orleans, bringing 10,900 tons of groceries, among which are 5,000 hogsheads sugar and 10,000 barrels molasses.
